II. Request for Proposals for Architectural Design Services For Greensville County Courthouse Security Project

1.0 Purpose

Greensville County is seeking sealed Proposals for the purpose of establishing a Contract with one (1) or more qualified Offeror(s) that has demonstrated experience and understanding of the needs of local government. The intent of the Request for Proposal (RFP) is to obtain architectural services to prepare the architectural design regarding the Greensville County Courthouse Security Project.

2.0 Background Information

General

The Greensville County Courthouse serves both Greensville County and the City Emporia. The General District Court, Circuit Court and the Juvenile and Domestic Court of both jurisdictions take place in the Courthouse. The Courthouse is located on Courthouse Square, which is on the 300 block of South Main Street in Emporia. The Courthouse Square also contains the Clerk's Office and an abandoned two story structure that at one time housed the County Administrative Offices.

The Greensville County Courthouse is the most architecturally and historically distinguished building in the complex. The first Courthouse structure on the site was erected in 1787. County records indicated that the first building was demolished and a "new" Courthouse erected in 1834. The 1834 structure is the basis of the present building. The building was T-shaped in the tradition of early Virginia Courthouses. The main portion of the building was 2 stories with 1 story wings to each side. There was no portico. Through the years the building has been massively altered.

The most recent major renovation to the Greensville County Courthouse was completed in 1996. That renovation included complete asbestos and lead paint remediation throughout the entire building, major foundation and structural reinforcements to the existing structure, new additions which included an on-slab wing on each end of the existing building and a sally port addition to the rear, complete new electrical, plumbing and mechanical systems throughout, a fire alarm and sprinkler system throughout, two new elevators, and a complete renovation of all of the existing building.

Since the 1996 renovation, security enhancements have been completed which included the installation of security cameras throughout the building and parking lots, installation of DVR equipment to record the camera footage, installation of a burglar system, and installation of keyless entry systems to selected door locations throughout the building.

While these alterations have obscured the original design character of the Courthouse, the building today remains handsome and impressive. A copy of the current floor plan for the Courthouse is attached in the PAR.

A preliminary architectural report was prepared by Baxter Bailey & Associates dated December 30, 2014. It can be accessed through the Greensville County website at page <http://www.greensvillecountyva.gov/index.php/public-information/procurement-announcements>.
